

Having thus described my invention, I claim:

1. A betting system comprising a play slip having at least one board containing a plurality of numbers being divided into a plurality of groups of numbers called positions and further being divided into a plurality of groups of numbers called zones marked with the use of one or more landmark lines to define active and inactive said zones used for charting, locating, selecting, evaluating, managing, and monitoring numbers, as related to numbers of said play slip over a specific number of previous games up to a time of selecting numbers for placing a bet.
2. A betting system comprising a play slip and play slip chart having at least one board containing a plurality of numbers being divided into a plurality of groups of numbers called positions and further being divided into a plurality of groups of numbers called zones marked with the use of one or more landmark lines to define active and inactive said zones used for charting, locating, selecting, evaluating, managing, and monitoring numbers, as related to numbers of said play slip and play slip chart over a specific number of previous games up to a time of selecting numbers for placing a bet.
3. A betting system comprising a play slip having at least one board containing a plurality of numbers being divided into a plurality of groups of numbers called positions and further being divided into a plurality of groups of numbers called zones marked with the use of one or more adjustable landmark lines to define active and inactive said zones used for charting, locating, selecting, evaluating, managing, and monitoring numbers, as related to numbers of said play slip over a specific number of previous games up to a time of selecting numbers for placing a bet.
4. A betting system comprising a play slip and play slip chart having at least one board containing a plurality of numbers being divided into a plurality of groups of numbers called positions and further being divided into a plurality of groups of numbers called zones marked

with the use of one or more adjustable landmark lines to define active and inactive said zones used for charting, locating, selecting, evaluating, managing, and monitoring numbers, as related to numbers of said play slip and play slip chart over a specific number of previous games up to a time of selecting numbers for placing a bet.

5. A betting system comprising a play slip having at least one board containing a plurality of numbers being divided into a plurality of groups of numbers called positions and further being divided into a plurality of groups of numbers called zones marked with the use of one or more fixed landmark lines to define active and inactive said zones used for charting, locating, selecting, evaluating managing, and monitoring numbers, as related to numbers of said play slip over a specific number of games up to a time of selecting numbers for placing a bet.

6. A betting system comprising a play slip and play slip chart having at least one board containing a plurality of numbers being divided into a plurality of groups of numbers called positions and further being divided into a plurality of groups of numbers called zones marked with the use of one or more fixed landmark lines to define active and inactive said zones used for charting, locating, selecting, evaluating managing, and monitoring numbers, as related to numbers of said play slip and play slip chart over a specific number of previous games up to a time of selecting numbers for placing a bet.

7. A betting system comprising a play slip having at least one board containing a plurality of numbers being divided into a plurality of groups of numbers called positions and further being divided into a plurality of groups of numbers called zones marked with the use of one or more fixed landmark lines to emphasize at least one boundary of active and inactive said zones used for charting, locating, selecting, evaluating managing, and monitoring numbers, as related to numbers of said play slip over a specific number of previous games up to a time of selecting numbers for placing a bet.

8. A betting system comprising a play slip and play slip chart having at least one board containing a plurality of numbers being divided into a plurality of groups of numbers called positions and further being divided into a plurality of groups of numbers called zones marked with the use of one or more fixed landmark lines to emphasize at least one boundary of active and inactive said zones used for charting, locating, selecting, evaluating managing, and monitoring numbers, as related to numbers of said play slip and play slip chart over a specific number of previous games up to a time of selecting numbers for placing a bet.

9. A betting system comprising in combination a play slip having at least one board containing a plurality of numbers being divided into a plurality of groups of numbers called positions and further being divided into a plurality of groups of numbers called zones marked with the use of one or more landmark lines to define active and inactive said zones used for charting, locating, selecting, evaluating, managing, and monitoring numbers, as related to numbers of said play slip over a specific number of previous games up to a time of selecting numbers for placing a bet; and in addition, a matching play slip chart having at least one said board containing said plurality of numbers being divided into a plurality of said groups of numbers called positions and further being divided into a plurality of groups of numbers called zones marked with the use of one or more landmark lines to define active and inactive said zones used for charting, locating, selecting, evaluating, managing, and monitoring numbers, as related to numbers of said matching play slip chart over a specific number of previous games up to a time of selecting numbers for placing a bet.

10. A betting system comprising in combination a play slip having at least one board containing a plurality of numbers being divided into a plurality of groups of numbers called positions and further being divided into a plurality of groups of numbers called zones marked with the use of one or more adjustable landmark lines to define active and inactive said zones

used for charting, locating, selecting, evaluating, managing, and monitoring numbers, as related to numbers of said play slip over a specific number of previous games up to a time of selecting numbers for placing a bet; and in addition, a matching play slip chart having at least one said board containing said plurality of numbers being divided into a plurality of said groups of numbers called positions and further being divided into a plurality of groups of numbers called zones marked with the use of one or more adjustable landmark lines to define active and inactive said zones used for charting, locating, selecting, evaluating, managing, and monitoring numbers, as related to numbers of said matching play slip chart over a specific number of previous games up to a time of selecting numbers for placing a bet.

11. A betting system comprising in combination a play slip having at least one board containing a plurality of numbers being divided into a plurality of groups of numbers called positions and further being divided into a plurality of groups of numbers called zones marked with the use of one or more fixed landmark lines to define active and inactive said zones used for charting, locating, selecting, evaluating, managing, and monitoring numbers, as related to numbers of said play slip over a specific number of previous games up to a time of selecting numbers for placing a bet; and in addition, a matching play slip chart having at least one said board containing said plurality of numbers being divided into a plurality of said groups of numbers called positions and further being divided into a plurality of groups of numbers called zones marked with the use of one or more fixed landmark lines to define active and inactive said zones used for charting, locating, selecting, evaluating, managing, and monitoring numbers, as related to numbers of said matching play slip chart over a specific number of previous games up to a time of selecting numbers for placing a bet.

12. The system of claims 1, 3, 5, and 7 wherein at least one board of a play slip is similar to at least one board of an existing play slip.

13. The system of claims 2, 4, 6, 8, 9, 10, and 11 wherein at least one board of a play slip and play slip chart is similar to at least one board of an existing play slip.

14. The system of claims 1, 3, 5, and 7 wherein at least one board of alphabets are used in place of numbers on at least one board of said play slip.

15. The system of claims 1, 3, 5, and 7 wherein at least one board of symbols are used in place of numbers on at least one board of said play slip.

16. The system of claims 1, 3, 5, and 7 wherein at least one board having any combination of numbers, alphabets, and symbols are used in place of numbers on at least one board of said play slip.

17. The system of claims 2, 4, 6, 8, 9, 10, and 11 wherein at least one board of alphabets are used in place of numbers on at least one board of said play slip and play slip chart.

18. The system of claims 2, 4, 6, 8, 9, 10, and 11 wherein at least one board of symbols are used in place of numbers on at least one board of said play slip and play slip chart.

19. The system of claims 2, 4, 6, 8, 9, 10, and 11 wherein at least one board having any combination of numbers, alphabets, and symbols are used in place of numbers on at least one board of said play slip and play slip chart.

20. The system of claims 1 through 19 wherein at least one component of said zones is delineated in at least one color.

21. The system of claims 1 through 19 wherein at least one component of said zones is delineated by shading or a combination of shading and at least one color.

22. The system of claims 1 through 21 wherein said plurality of groups of numbers called zones are defined as a plurality of groups of numbers marked with four or more perpendicular boundaries of which said one or more is a said landmark line.

23. The system of claim 22 wherein said plurality of groups of numbers called zones are
defined as a plurality of groups of numbers marked with four or more perpendicular boundaries
and said one or more landmark lines being aligned more or less than perpendicular.
